Outsider (40min, Audience Award Winner for Best Short Film at the Montclair Film Festival) presents a rarely seen, candid view of a family's journey with mental illness and captures how creativity – the act of creating – can save us and keep us tethered even in the worst of times. Following the screening, we will have a panel discussion on mental health, art and family. Maury Ornest's paintings will be on display. Please participate in and promote this creative event and help reduce the stigma of mental illness.
